

REMARKS

Reconsideration is respectfully requested. The claim amendments are made without prejudice.

Claims 1 has been amended to recite the structure comprising a member defining an access opening and a relatively movable member defining a cover therefor. The housing surrounding the cable lock body is recited as permanently affixed directly to one of said members. In this latter regard, the recitations regarding the members defining an access opening and cover and the connection of the cable lock body housing to one of these members parallels allowed claim 6.

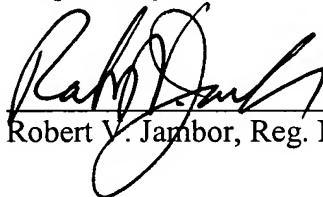

Nowhere does the Velschou or Georgopoulos references suggest affixing the cable lock body housing to the opening defining member or its cover.

Claims 4, 6, and 7 have been amended to recite the cable ends in broader terms consistent with the disclosure. Other minor, clarifying amendments have been made. Also, in claim 6, the recitation of a welded connection between the cable lock body and housing has been deleted and added to claim 11. New method claim 14 has been added.

Allowance of the pending claims is respectfully requested.

Any required fees may be charged to Deposit Account No. 10-0460.

Respectfully submitted,

Robert V. Jambor, Reg. No. 23,080
